

**Job Title: Assistant Acoustic Consultant**

**Location: Nottingham**

An exciting opportunity to join our Chartered multi-disciplinary consultancy in Nottingham, providing sustainability and environmental consultancy to the construction industry. Encon Associates were established in 2008 and we undertake a variety of environmental noise surveys and subsequent noise impact assessments to assist with the planning process or compliance with BREEAM and Code for Sustainable Homes.

This role would suit someone currently completing the IOA Diploma in Acoustics and Noise Control. We can offer part time working with flexible hours to fit around studying and the possibility of a full-time position on completion of the diploma.

**As an Assistant Acoustic Consultant you will receive some excellent benefits:**

Flexible working options and a healthy work-life balance encouraged

20 days annual leave (pro-rata) plus additional Christmas closure (usually 4-5 days) and public holidays

Competitive pension scheme

Personalised development programme designed to enhance your knowledge and progress your career with support from our in-house Acoustic Consultant

Payment of professional membership fees

Payment of mileage and expenses incurred while carrying out surveys

A multi-disciplinary business with opportunities to work on a wide range of projects, developing your experience and skills

Opportunity to work on high profile projects with national clients

A close-knit, friendly and supportive team, with a relaxed office atmosphere

**As an Assistant Acoustic Consultant your duties will include:**

Supporting senior staff to ensure projects are delivered

Carrying out attended and unattended noise surveys for a range of projects within the UK, occasionally this will be at night time and weekends

Liaising with clients effectively to understand their requirements

Liaising with Environmental Health Officers

Carrying out assessments in accordance with BS 8233:2014, BB93:2015 and BS 4142:2014

Technical report writing

**To be considered you will need:**

Working towards or holding the IOA Diploma in Acoustics and Noise Control

Hold a degree in a relevant subject, or equivalent experience

Hold a full UK driving licence and have access to a car

Be willing to attend site and undertake surveys within the UK with occasional out of hours working at nights and weekends

Working knowledge and understanding of relevant British Standards and legislation

Excellent communication skills

An understanding of health and safety

Good report writing skills

Strong IT skills including Word and Excel
